The starter's durable construction ensures longevity, making it a great investment for grilling enthusiasts. Its heat-resistant handle allows for a comfortable grip, and the built-in heat shield protects your hands from excessive heat while handling the chimney starter. Designed for ease of use, this chimney starter is suitable for beginners and experienced grillers alike.

Key Features:

- Easy starting: No need for lighter fluid or other accelerants.
- Natural airflow: The chimney design enhances air circulation, enabling the coals to catch fire quickly and evenly.
- Large capacity: The Aloha Hawaii Chimney Starter can hold up to 5 pounds of charcoal, ensuring you have enough fuel for extended grilling sessions.
- Heat-resistant handle: The ergonomic handle stays cool to the touch, providing a comfortable grip during use.
- Heat shield: The built-in heat shield protects your hands from high temperatures, minimizing the risk of burns.
- Portable: Lightweight and compact design makes it easy to take with you for outdoor adventures.
- Safe and eco-friendly: No harmful chemicals or residues are released into the environment, promoting a healthier grilling experience.

How to Use the Aloha Hawaii Charcoal Chimney Starter 2019?

Using the Aloha Hawaii Charcoal Chimney Starter is a straightforward process that anyone can master. Here's a step-by-step guide:

1. Fill the chimney with charcoal: Open the top of the chimney and pour in the required amount of charcoal. You can refer to the user manual for recommended charcoal quantities based on your grilling needs.
2. Place newspaper or fire starters under the chimney: Crumple a few sheets of newspaper or use fire starters and place them underneath the chimney.
3. Ignite the newspaper/fire starters: Light the newspaper or fire starters, allowing the flames to engulf the bottom of the chimney.

4. Wait for the coals to ignite: The natural airflow system will enable the coals to catch fire from the bottom, gradually spreading to the top. This process typically takes 10-15 minutes.
5. Pour the ignited coals into your grill: Once the coals are fully lit and covered with a thin layer of ash, carefully pour them into the grill and spread them evenly. Now you're ready to start grilling!
