Why Off Your Face Creams is Different?

Off Your Face Creams is not just another ordinary skincare product. What sets it apart from the rest is its unique formulation and powerful ingredients that work wonders for the skin.

Unlike other creams that only provide temporary results, Off Your Face Creams focuses on long-term skin rejuvenation and improvement. It addresses a wide range of skin concerns, including acne, dark spots, fine lines, wrinkles, and uneven skin texture.

Moreover, the cream is suitable for all skin types, making it accessible to everyone looking to achieve healthier and more youthful-looking skin.

The Power of Off Your Face Creams

Off Your Face Creams combines scientifically proven active ingredients that work synergistically to provide unparalleled results.

The star ingredient of this revolutionary cream is Hyaluronic Acid, known for its exceptional hydrating properties. It deeply moisturizes the skin, helping it regain its natural elasticity and youthful appearance.

Additionally, Off Your Face Creams contains powerful antioxidants such as Vitamin C and Green Tea Extract. These ingredients combat free radicals, reduce inflammation, and protect the skin from environmental damage.

The cream also includes other potent components like Retinol and Niacinamide that stimulate collagen production, reduce hyperpigmentation, and improve skin texture.

I'm Mike Harmon and I have been formulating skin care products for 30 years. I have formulated for private clients, boutique beauty salons and luxury hotel spas. I have been teaching courses showing people how to formulate skin care ranges for 15 years. All that experience is now accessible to you too.

In this book, you will learn more about all of the ingredients that are used so that you can start your own incredible journey to making your own skincare cosmetics that are natural and really effective - all of them incorporating cannabis.

Why cannabis? You may have heard of Cannabis Sativa as a herb to smoke or ingest in foods - more latterly, CBD has appeared on the market with a wide range of therapeutic benefits, but did you know that cannabis can be applied to

the skin in different forms? It gives an extremely effective and elegant way to get the therapeutic benefits into your body.

When you are starting out on your skincare journey, it's important to learn good habits right from the start so that they become second nature: keep your working area clean, tick off ingredients as you use them and be sure to use the correct amounts. This all makes a difference when it comes to using preservatives. Don't forget to label and date your products.

Thanks to my experience of teaching cosmetology courses and formulating for successful brands, I can make it easy for you to follow how to do this for yourself.

I have done the hard work for you and I will lead you through making your own;

- Happy Hand Cream
- Floaty Foot Cream
- Mind Blowing Massage Cream
- Blissed Out Body Butter
- Cool Conditioner Bar
- Lip Smacking Lip Balm
- Rear Enders
- Magical Massage Candle

- Bootylicious Body Lotion
- Sore Joints Jelly
- Spray That Again Body Oil
- Stir Crazy Gel

These are the same high quality spa products that I specialize in formulating, and they make a good spa experience - even without the cannabis. However, with the added benefits of cannabis, they are taken to another level, enabling your body to utilize the antioxidants, terpenes and cannabinoids that naturally occur in the plant. Maybe one of you will be inspired to open the first cannabis spa, who knows? If you do, don't forget to send me an invitation!

This book will also introduce you to some of the less common oils that you may never have heard of before, like Meadowfoam Seed Oil. These are just a couple of insider tips that I will share with you.

This book and blog website are the result of a long but productive Covid lockdown in my adopted country of Spain and a lot (I mean a LOT) of practice, patience and research. Finally, here it is, all ready for you to lose yourself in and enjoy.

There is a list of contacts to ensure you get the correct specific ingredients using several suppliers who are able to guarantee the consistent quality and availability of their goods. Some of them have allowed me to give you discount codes to save money as well.

Be sure to follow my blog so you can read more about the ingredients you will be using and links to suppliers.
