I love cooking with zucchinis because it offers so many possibilities and they are all equally good! Fry them, bake them, grill them- and if you are doing it right, the outcome is always going to be delicious.

Zucchinis are also called summer squash and their size can vary. Usually they are green colored, but occasionally also come in beautiful oranges and yellows. Zucchini noodles have been very popular in the last few years, to fit the gluten free diet. That's right, grab a vegetable peeler and start peeling! You can then serve your favorite sauces on top of a bed of zucchini noodles, and avoid all the extra carbs and calories from traditional pasta. An average zucchini contains just about 40 calories, so it's really nothing compared to a bowl of pasta.

So, get ready to learn more about zucchini recipes, about how to serve them and have fun with them. Let's start!
