These vital sensations can be viewed as the body's response to stimuli. Every experience, whether it is a joyous occasion or a traumatic event, leaves an impression on our vital force. A homeopath, through careful observation and questioning, tries to elicit this vital sensation, uncovering the patient's fundamental experience that defines their state of being. This holistic examination provides a deeper understanding of the complexities underlying an individual's health issues.

### Unlocking the Secrets of Healing

Vital Sensation Manual Unit Levels in homeopathy aims to unlock the secrets of healing by addressing the individual as a whole, rather than focusing solely on symptoms or physical ailments. By identifying the root cause of the illness, a homeopath can prescribe remedies that resonate with the patient's vital sensation, promoting true healing.

The process of determining vital sensation involves a thorough analysis of the individual's life experiences and emotions. It requires the homeopath to delve deep into the patient's past, present, and even future aspirations. The goal is to identify the core issue that influences the person's overall health and wellbeing.

Once the vital sensation is ascertained, the homeopath can then select a suitable remedy that aligns with the patient's experience, allowing the healing process to begin. The remedy chosen will resonate with the individual's vital force, promoting a sense of balance and wellbeing.

The Vital Sensation Manual is a series of five units for homeopaths to learn how to apply and take homeopathic cases using the Sensation Method. The manual is an interesting read for non-homeopaths, but is not meant to be used by lay-people who are not formally trained in homeopathy. This second unit focuses on levels using the Sensation Method.

The in-depth course provides a comprehensive understanding of the methods used to prescribe and treat patients homeopathically based on Dr. Rajan Sankaran's theories, research, teaching and practice.

The Sensation Method developed by the Bombay Group led by Dr. Rajan Sankaran improves your self confidence because there are clear indications of how to follow the case and to narrow the prescriptions.

Easy To Understand, Logical, Many Examples, Understand The Principles And Apply Them...

The manual explains where you are when taking a case, and how to use a mapping system when using this approach:

- Begin with the chief complaint
- Discover the Vital Sensation (where the mind and body connect)
- Follow the various levels (going beyond the level of Delusion to the levels of Sensation and Energy where the qualities of the substance are described by the patient)

- Differentiate the four kingdoms--Mineral, Plant, Animal and Imponderable
- Apply the tools of miasms
- Make an accurate prescription based on Source and Sensation language and confirmed through traditional methods of the repertory and Materia Medica when available

The manual includes Melissa Burch's paper cases edited for easy reading and with comments specific to the topic of the unit.

All the information in the manual is founded on the principles of Classical Homeopathy and the work of Dr. Samuel Hahnemann.
